

USER MANUAL

PURE BOOSTER

Thank you for spending time and money to buy this pure booster pedal. The booster is designed for guitar with original gain input. You can put it in front of overdrive/distortion . We have tried our best to provide you a high quality booster with the tone warm and clear. We hope that you will enjoy using it.

Attentions

Power Supply

Please make sure your pedal is connected to an DC adapter with 9V ($\pm 10\%$) voltage. Unplug the DC adapter when not using the product or during the thunder storm.

Connections

Please always turn off the power of the equipment when connecting or disconnecting with the pedal. It will help to prevent the damage cause to this product and other relevant equipment.

Interference

Radio and television which is placed nearby the pedal may cause reception interference. Please use the product in a suitable distance from radios and television.

Location

To avoid deformation, discoloration, or other damage to the product. Please do not expose the unit to the following conditions:

- Direct sunlight
- Heat sources
- Magnetic fields
- Extreme temperature or humidity
- Excessive dusty or dirty location
- High humidity or moisture
- Strong vibrations or shocks
